

# Altius Consulting *invites* you to a 2- part Green Business Presentation

## The Economics of Solar Photovoltaic (PV) Power System

15 July 2011, 2:00 – 3:30pm, Grand Menseng Hotel, Davao, City

19 July 2011, 2:00 - 3:30pm, Hotel, Pontefino, Batangas City

25 July 2011, 2:00 - 3:30pm, EDSA Shangri-la Hotel, Mandaluyong City

## Lake Management System: Solutions for Fish Kills Mitigation and Bodies of Water Sustainability

15 July 2011, 3:45 – 5:15 pm, Grand Menseng Hotel, Davao, City

19 July 2011, 3:45 – 5:15 pm, Hotel, Pontefino, Batangas City

25 July 2011, 3:45 – 5:15 pm, EDSA Shangri-la Hotel, Mandaluyong City

# The Economics of Solar PV Power System

## ABOUT THIS SEMINAR

The world is moving towards cleaner and greener sources of electrical energy to support the growing population and business needs. Solar PV Power System has come to the fore and has become increasingly cost-effective solution. Come to this seminar and let us talk about it.

Solar PV Power Systems can be used for the electrical needs of schools, hospitals, utility companies, households, irrigation and many other uses.

In this seminar, you will learn:

- § The fundamental knowledge, applications and benefits of PV system
- § Understand how much a PV power system costs – small & large power systems
- § Open up a discussion for potential PV power system implementation

# Lake Management System

## ABOUT THIS SEMINAR

The recent fish kills incident in Batangas and Pangasinan present an opportunity to re-examine our commitment to environmental protection and sustainability. Shall we let these incidents to continue or shall we find a solution now?

Before the Treatment

After the Treatment

Altius Lake Management System can be used to treat lakes, rivers, fishponds, golf ponds and many other bodies of water and treatment of waste water from industries.

In this seminar, you will learn:

- § The characteristics of a healthy body of water
- § The causes of water quality degradation and its long-term effects
- § Lake Management System – how bacteria, nutrients and bio-reactors are used to maintain vital parameters of a healthy body of water
- § Open up a discussion for potential lake management system implementation

## ABOUT ALTIUS CONSULTING

We are a sales and marketing organization bringing world-class solutions in the fields of renewable energy, education & training, environmental protection, agriculture and information technology. Our long-term goal is to help improve the world we live in by helping our clients identify and implement business solutions that are environment-friendly.
